AT A GLANCE

CALL FOR SCARY MUSIC AND POEMS

TOWN OF SUNDOWN – Well, the time has come, creepy citizens of Sundown. Work has begun on Halloween projects to be released to the rest of the country when they celebrate Samhain (since we celebrate year-round here). 96.6 WOLF is putting a call out to all scary music makers to send your work to Daddy Wolf, as your work may be put on our haunted airwaves. Also, Sundown is asking for poems and short stories dedicated to the theme of ghosts at Wintertime, which will be featured in our annual magazine, The Spirit Season. If you have a song or story to share, reach out now and email: bigbaddaddywolf@sundownhorror.com

DAMN THE WITCH SIREN may only consist of two members, but the duo of Bobbi Kitten and Z Wolf are truly a witch force to be reckoned with!

Demonstrating the true tenacity it takes to make it in the music world these days, Bobbi and Z have been grinding non-stop for years. Now, on the eve of their fourth full-length album, Gold Magic, set to release July 29th, the band is finally starting to receive the attention they deserved years ago.

I mean, their music has always been flawless, fun, and original, with Gold Magic looking to continue such traits, only with more wolf “gold” and witch “magic”. But what has always set them apart is they have what I call the “It” factor.

Bobbi and Z just work amazing together, support one another, and when you see them, you can’t help but feel that “star” factor, like when you are in the presence of a Hollywood actress or Rob Zombie backstage after a concert. You just know it is written in the Wormwood stars for Damn The Witch Siren!

And that Hollywood star factor is quite right as they both appear in the film “Poser”, set to hit your theater this summer. This isn’t just a cameo or soundtrack gig (though Z does do the score), but they actually star as themselves in the film! How wicked cool is that, creepy citizens?!?

96.6 WOLF is proud to feature Damn The Witch Siren’s music on our station starting in July, and look for an Artist Spotlight dedicated to them as well. So stay alivin’ and jivin’, Sundown, and let’s crank up that witch’s brew known as Damn The Witch Siren.

All Original and Unheard SUSPENSE! Radio Shows on The WOLF!

SUSPENSE! old time radio programs have been on the air since 1940! The original series ran until 1962, when sadly a lot of radio programs were replaced with a new television series.

But, in 2012, the series was brought back to life by John C. Alsedek and Dana Perry-Hayes for Sirius XM radio programming. Some of the programs created by this duo were aired, and some were not.

Those that were not never aired, until now! A friend of Dr. Ghoul's, John Alsedek has allowed 96.6 WOLF to air the new series episodes on our haunted airwaves, which we couldn't be

happier to have this amazing program with such rich heritage on our station.

You can hear Suspense! every day at 12:30pm EST, with a new episode released each week!
